

■ **Feature : Ministry Grant-in-aid Health Informatics Research Project Reports Part III**

※Principal Investigator

Feasibility Study of Data Linkage of Hospital-based Cancer Registry, Insurance Claims Equivalent Data and Other Medical Information 10
TAKAHIRO HIGASHI* (National Cancer Center, Center for Cancer Control and Information Services Division of Cancer Health Services Research), KENICHI NAKAMURA (National Cancer Center Hospital), NORIHIRO TERAMOTO (National Shikoku Cancer Center), HIDEAKI KOBAYASHI (Oosumi Kanoya Hospital)

Development of an Automatic Structuring System and Model of a Medical Record, and Development of Its Input Mechanism 12
EIJI ARAMAKI* (Nara Institute of Science and Technology), SHOKO WAKAMIYA (Nara Institute of Science and Technology), YOSHIMASA KAWAZOE (Graduate School of Medicine and Faculty of Medicine, The University of Tokyo)

Research on Improving the Efficiency of Pathological Diagnosis and Assisting in Diagnosis by Automatic Classification of Kidney Biopsy Pathology Images using Deep Learning Technology 14
KAZUHIKO OHE* (The University of Tokyo Faculty of Medicine University Hospital, Department of Medical Informatics), YOSHIMASA KAWAZOE (Graduate School of Medicine and Faculty of Medicine, The University of Tokyo), YUTAKA MATSUO (School of Engineering, The University of Tokyo), KOTARO NAKAYAMA (School of Engineering, The University of Tokyo), HIROSHI UOZAKI (Teikyo University Faculty of Medicine, Department of Pathology), YUKAKO DOMOTO (SHINTANI) (The University of Tokyo Hospital), NAOKI KASHIHARA (Kawasaki Medical School), AKIRA SHIMIZU (Nippon Medical School), MICHIO NAGATA (University of Tsukuba Faculty of Medicine), MASAOMI NANGAKU (Graduate School of Medicine, The University of Tokyo), YUSUKE SUZUKI (Juntendo University)

Research on Human Resource Development that Contributes to Technological Innovation and International Competitiveness in Artificial Intelligence for Healthcare 16
TAKASHI OKUMURA* (Kitami Institute of Technology), YUICHI ANDO (National Institute of Public Health), TAKASHI FUKUDA (National Institute of Public Health), MOTONORI NAKA-

MURA (National Institute of Informatics), TATSUO KAMITANI (The University of Fukuchiya-
ma), ETSUJI OKAMOTO (The University of Fukuchiya), SHINJI KIMURA (Sapporo Medi-
cal University), YOSHIHITO KAMEDA (Chiba University), KOICHI FUJIWARA (Nagoya
University)

Research on Theoretical and Practical Policy Basis for Children with Specific Chronic Pediatric Dis-
eases 18

HITOSHI KATO* (National Center for Child Health and Development), SUSUMU YOKOTANI
(Fukushima Global Medical Science Center), HIROYUKI IDA (The Jikei University School of
Medicine), SHUJI TAKEI (Kagoshima University Faculty of Medicine), KAZUTOSHI CHO (Hok-
kaido University Hospital), HIROYUKI SHICHINO (National Center for Global Health and Medi-
cine), DAISHI HIRANO (The Jikei University School of Medicine), HIROKAZU ARAKAWA
(Gunma University), GORO KOINUMA (Keio University School of Medicine), TSUTOMU
OGATA (Hamamatsu University School of Medicine), SHIGETAKA SUGIHARA (Tokyo
Women's Medical University Medical Center East), TORAYUKI OKUYAMA (National Center for
Child Health and Development), AKIRA OHARA (Toho University Faculty of Medicine), TO-
MOHIRO MORIO (Tokyo Medical and Dental University), HIROFUMI KOMAKI (National Cen-
ter for Neurology and Psychiatry), MITSURU KUBOTA (National Center for Child Health and De-
velopment), KENJIRO KOSAKI (Keio University School of Medicine), HIRONORI NIIZEKI
(National Center for Child Health and Development), SUSUMU KANZAKI (Faculty of Medicine
Tottori University), TATSUO KURODA (Keio University School of Medicine), NORIKO
MORIMOTO (National Center for Child Health and Development), RINTARO MORI (National
Center for Child Health and Development), AKIRA OHTAKE (Saitama Medical University Faculty
of Medicine), NAOKO KAKEE (National Center for Child Health and Development), AKINORI
MORITOKI (National Center for Child Health and Development), HITOSHI HORIGOME (Univer-
sity of Tsukuba Faculty of Medicine), NAMI OKAMOTO (Osaka Medical College), HITOSHI
YODA (Toho University), HIROSHI KITOH (Nagoya University Graduate School of Medicine),
TOMOYUKI TAKURA (The University of Tokyo Graduate School of Medicine), RYOTA OCHIAI
Yokohama City University)

Development of a Comprehensive Chronic Kidney Disease Database and Its Expansion and Enhance-
ment of Connectivity 20

NAOKI KASHIHARA* (Kawasaki Medical School), MIHOKO OKADA (Institute of Health Data
Infrastructure for All), HITOSHI YOKOYAMA (Kanazawa Medical University), MASAOMI
NANGAKU (Graduate School of Medicine, The University of Tokyo), KUNIHIRO YAMAGATA
(Faculty of Medical, University of Tsukuba), TAKASHI WADA (Kanazawa University), NAOKI
NAKASHIMA (Kyushu University Hospital Medical Information Center), HITOSHI SUGIYAMA
(Okayama University), SHOICHI MARUYAMA (Nagoya University), HIROKAZU OKADA
(Saitama Medical University Faculty of Medicine), EIICHIRO KANDA (Kawasaki Medical
School), HIROMI KATAOKA (Kawasaki University of Medical Welfare)

Research on International Comparison of Medical Practice Classifications and Contribution to the Improvement and Value of Their Use 22

HIROKAZU KAWASE* (St. Marianna University School of Medicine), TADASHI IWANAKA (The University of Tokyo), KENJI HATANO (National Center of Neurology and Psychiatry), NAGAHIRO TAKAHASHI (Chiba Foundation for Health Promotion & Disease Prevention), YASUO ARAI (Kitasato University Hospital)

Development of Intraoperative Rapid and Double-checking Support Tools for Pathological Diagnosis of Rare Cancers by Pathological Image Recognition using Digital Pathological Images and Artificial Intelligence Technology 24

TAKESHI SASAKI* (The University of Tokyo Hospital), YUTAKA TAKAZAWA (The Cancer Institute of JFCR), TEMPEI MIYAJI (The University of Tokyo Hospital), NAOYUKI NOMURA (The University of Tokyo Hospital), TOORU MIYAKOSHI (Inspec Inc.)

A Study on Directions of Standard Formulation with a View to Utilizing Healthcare Data 26

TOMOHIRO SAWA* (Teikyo University), MIHOKO OKADA (Institute of Health Data Infrastructure for All), MICHIO KIMURA (Hamamatsu University Hospital), DAISUKE KOIDE (The University of Tokyo Faculty of Medicine University Hospital), GEN SHIMADA (St. Luke's International Hospital), KENGO MIYO (National Center for Global Health and Medicine)

Research to the Policy and Legal System to Utilize Medical Information for Promoting Cancer Genomic Medicine 28

HARUKA NAKADA* (National Cancer Center, Center for Public Health Sciences), AKIRA HIRASAWA (Department of Pediatrics Okayama University Graduate School of Medicine), SHIMON TASHIRO (National Cancer Center, Center for Public Health Sciences), YUICHI MARU (Faculty of Regional Sciences, Tottori University)

Research on the Search for the Possibility of International Statistical Reporting in the Field of Health, Labour and Welfare Statistics using Current Official Statistics 30

NAOHIRO MITSUTAKE* (Institute for Health Economics and Policy), TOMOKI ISHIKAWA (Institute for Health Economic and Policy), MICHI SAKAI (Institute for Health Economics and Policy), SHIGERU TANAKA (Keio University), TAKASHI FUKUDA (National Institute of Public Health), ATSUSHI YAMAOKA (Kobe University Graduate School of Economics)

Research for Converting Electronic Medical Record Information into Data that Can be Analyzed Based on Standardization of Semantics 32

YOSHIHIRO MIYAMOTO* (National Cerebral and Cardiovascular Center), TADAMASA TAKEMURA (University of Hyogo), MISA TAKEGAMI (National Cerebral and Cardiovascular Center), TAKAHIDE KOHRO (Jichi Medical University), MASAHARU NAKAYAMA (Tohoku University Hospital), TETSUYA MATOBA (Kyushu University Hospital), ISSEI KOMURO

(Graduate School of Medicine, The University of Tokyo), YOSHIHIKO SAITO (Nara Medical University), SATOSHI YASUDA (National Cerebral and Cardiovascular Center), TOSHIAKI SHISHIDO (National Cerebral and Cardiovascular Center), KUNIHICO NISHIMURA (National Cerebral and Cardiovascular Center), HARUHIKO HIRAMATSU (National Cerebral and Cardiovascular Center), KOJI UEMURA (National Cerebral and Cardiovascular Center), KENICHI TSUJITA (Kumamoto University Hospital), KOICHIRO USUKU (Kumamoto University Hospital), FUMIAKI NAKAMURA (National Cerebral and Cardiovascular Center)

Development of a Screening Support System for Viral Infections in Primary Care 34
KAZUHIKO MORIKAWA* (Tokyo Metropolitan Children's Medical Center), TADAO OKADA (National Center for Child Health and Development), NAOHISA YAHAGI (School of Engineering, The University of Tokyo), SHOGO KATO (National Center for Child Health and Development)

Study on Data Linkage Studies Using Medical Data in Perinatal Medicine 36
NAHO MORISAKI* (National Center for Child Health and Development), RINTARO MORI (National Center for Child Health and Development), HIDEO YASUNAGA (Graduate School of Medicine, The University of Tokyo), NAOKO KAKEE (National Center for Child Health and Development), FUMITAKE MIZOGUCHI (Maebashi Red Cross Hospital), CHIE NAGATA (YOKOO) (National Center for Child Health and Development), ERIKA OHTA (ITO) (St. Luke's International University), MAHBUB LATIF (St. Luke's International University)

Research on Infection Control of Drug-resistant Bacteria at Medical Institutions Based on Regional Cooperation 38
TETSUYA YAGI* (Nagoya University Graduate School of Medicine), HIROKI OHGE (Hiroshima University), NOBUO MURAKAMI (Gifu University Hospital), YOSHITSUGU IINUMA (Kanazawa Medical University), YOSHIAKI GU (National Center for Global Health and Medicine), YUICHI MURAKI (Kyoto Pharmaceutical University Hospital), SHUHEI FUJIMOTO (Tokai University School of Medicine)

Diagnosis and Evaluation of Severity of Dementia using AI with EEG/MEG 40
TAKUFUMI YANAGISAWA* (Osaka University Institute for Advanced Co-Creation Studies), HARUHIKO KISHIMA (Graduate School of Medicine Faculty of Medicine, Osaka University), TATSUYA HARADA (Graduate School of Medicine, The University of Tokyo), HIROAKI KAZUI (Kochi University), KENJI YOSHIYAMA (Kansai Medical University Faculty of Medicine), MASAFUMI YOSHIMURA (Kansai Medical University Faculty of Medicine), KEIICHIRO NISHIDA (Kansai Medical University Faculty of Medicine), MASAHIRO HATA (Graduate School of Medicine Faculty of Medicine, Osaka University)

■Interest Material

Verifying a Effectiveness of the System we Newly Developed for Extracting Patients with Impaired Renal Function and Suggesting Optimal Dose 43
KAORU MATSUMOTO, TETSUSHI AMANO, YUKARI YATSUNAMI
MASAMI ITO, ATSUSHI SUZUKI and YUKARI ITAKURA

■Instruction for Authors 53

■Editorial 57
