

■ **Feature : Ministry Grant-in-aid Health Informatics Research Project Reports Part V**

※Principal Investigator

Research on the Development of AI, etc. that Contributes to Nursing Care Prevention by Building a Cross-sectoral Data Collection, Utilization, and Analysis Platform in the Fields of Health, Medical Care, and Nursing Care 146

HIDENORI ARAI* (National Center for Geriatrics and Gerontology), HIROYUKI SHIMADA (National Center for Geriatrics and Gerontology), TATSUNORI HARA (Organization for Interdisciplinary Research Project, The University of Tokyo)

Fact-finding Survey on the Provision of Medical Information at Medical Institutions 148

HISASHI OHMACHI* (Japan Hospital Association, Japan Society of Health Information Management)

Research on the Development and Introduction Program of a Support System for Dementia that Proposes Prevention and Early Detection of Behavioral and Psychological Symptoms using Artificial Intelligence and Appropriate Countermeasures 150

ASAO OGAWA* (National Cancer Center), KEI HIRAI (Osaka University Graduate School of Human Sciences), HITOSHI TANIMUKAI (Kyoto University Graduate School of Medicine), SHO TAKAHASHI (University of Tsukuba Faculty of Medicine), MIHARU NAKANISHI (Tohoku University Graduate School of Medicine), SHINICHIRO INOUE (Okayama University Hospital), KEIICHI UEMURA (Tonan Hospital), HIROKI FUKAHORI (Keio University Faculty of Nursing and Medical Care), MASANORI ENOKIDO (National Cancer Center Hospital East), NOBUYOSHI TAKESHITA (National Cancer Center Hospital East)

Establishment of a System for Locomotive Syndrome Countermeasures in Local Governments: Demonstration of Effective Prevention and Intervention Methods using Artificial Intelligence Evaluation of Clinical Information and Muscle Ultrasound 152

HIROYUKI OKA* (The University of Tokyo Hospital, 22nd Century Medical and Research Center), KO MATSUDAIRA (The University of Tokyo Hospital, 22nd Century Medical and Research Center), NORIKO YOSHIMURA (The University of Tokyo Hospital, 22nd Century Medical and Research Center), HIROSHI HASHIZUME (Wakayama Medical University)

| | |
|---|-----|
| Development of AI for Microbiome Analysis to Accelerate Personalized Prevention of Diabetes | 154 |
|---|-----|

National Institute of Biomedical Innovation, Health and Nutrition Center*, JUN KUNISAWA (National Institute of Biomedical Innovation, Health and Nutrition Center), KENJI MIZUGUCHI (National Institute of Biomedical Innovation, Health and Nutrition Center), HARUKO TAKEYAMA (Waseda University Faculty of Science and Engineering), JUN OGAWA (Kyoto University)

| | |
|---|-----|
| Development of a Severity Prediction Model Originating in Japan using Artificial Intelligence Based on Japanese Intensive Care Clinical Information and Creation of an Environment for Panel Data Utilization | 156 |
|---|-----|

SHUNSUKE TAKAKI* (Yokohama City University Hospital), SATORU HASHIMOTO (Kyoto Prefectural University of Medicine), YUSUKE IIZUKA (Jichi Medical University Saitama Medical Center), TAKASHI HASEGAWA (Japan Telemedicine Society), TAKESHI NOMURA (Tokyo Women's Medical University), SHINICHIRO OSHITA (Hiroshima University), HIDENOBU SHIGEMITSU (Tokyo Medical and Dental University)
